

How to ... Add An Instagram Tab To Your Facebook Page using Instatab

Instatab allows you to showcase your photos on your Facebook page in a grid form and it also allows users to share and comment on your Instagram photos within Facebook.

1. Log into Facebook (on your PC) and visit the Instatab Facebook page:
<https://www.facebook.com/instatabapp/>
2. Click "Use App"
3. Select the page you would like to add the Instagram tab to from the dropdown then click the "Add Page Tab" button to install the application.
4. "Instagram" will now appear in the left-hand menu of your Facebook page. Click this link
5. Update the application settings with your own Instagram handle. You can also adjust the size and number of posts displayed
6. "Save settings" to finalise.
